Dear Parents and Caregivers

Future Direction for Our School

The Board of Trustees is currently in the process of reviewing its short and long term strategic goals for our school. Our goal is to have a vision for the future which has clear attainable goals and provides for the ongoing improvement in student achievement.

We are very aware of the need for, and committed to obtain, the best possible information to help us move forward positively and effectively. Therefore we will be seeking from our students, parents and staff as well as other stakeholders as to your thoughts and insights for the school.

As part of this process, over the next two weeks each student and staff member will be given opportunity to provide feedback and additionally, each family will receive a questionnaire through your children for you to complete. We will be seeking to obtain your views on a range of topics relating to the school [including extra-curricula activities provided in the school]. The information from all responses will be collated by the board to consider in its deliberations and decision making. In turn, the board will provide feedback back to you.

Your help in responding to the questions will help us tremendously as we plan for the future of our school and more importantly your children's education at our school.

We thank you for your ongoing support for the school and your child's education.

Martin Cochrane
Chairperson
Board of Trustees
Waimate High School
